GIROTONDO

Going on, walking and discovering.

Going around and finding night and day.

Two curious travellers go around and discover suspended and luminous worlds.

Worlds that turn and bring you night and day, small worlds that become big. Worlds made of looks and games.

Girotondo is a show with circular motions, constantly changing, with music and magical, playful images.

It is a journey for amazed and curious eyes through suspended worlds that can be observed as we all fall down with our nose up in the air.

All languages

Winner of the **Michel Indali** Award for the best performance at the Kolibri Évadnyitó Fesztivál Budapest, Hungary (2017).

technical requirements

Minimum space required:

width 6m - depth 6m
