# JOURNEY OF A CLOUD

The clouds in the sky are never still, they move swiftly and look down at us from high above. They have so many shapes and colours, and they travel around the world. A big, big world, full of different places and animals to discover together. Clouds like to travel from the country to the desert, but sometimes they stop right above your head and tell you a story.

*Cloud, have you seen the world?*

*Yes, of course...*

*And... can you tell me about it?*

*Take my hand, close your eyes and come with me.*

*We're off on a journey, perhaps it's real, or perhaps it's just a dream.*
